

Sastrería Manuel Fernández

Change list for the development team — round 2

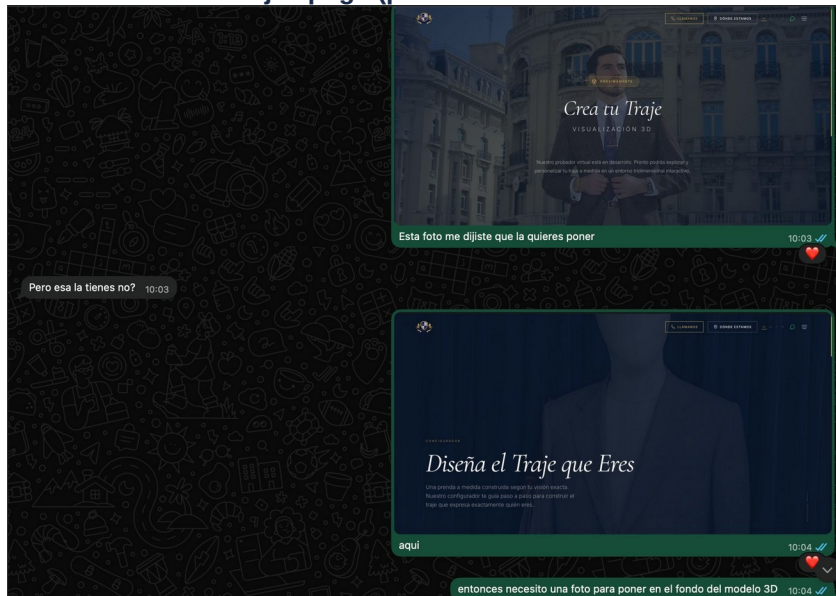

Ryvo Digital · 24 May 2026

Second batch of changes agreed with the client. Each item states what needs to be touched and, where relevant, includes the reference screenshot. On-site copy (titles, section names) is kept in Spanish, since that is what gets implemented.

1. “Crea tu Traje” background — move to “Diseña el Traje que Eres”

Take the current background photo from the “Crea tu Traje” page (man buttoning his jacket, Madrid building behind him) and move it to the “Diseña el Traje que Eres” page, to be used as its background. (See change 2 for what goes in its place on “Crea tu Traje”).

Current “Crea tu Traje” page (photo to move — left side of the reference):

2. “Crea tu Traje” — new background behind the 3D model

On the “Crea tu Traje” page, set the new photo below as the background behind the 3D garment model (replacing the photo that was moved in change 1).

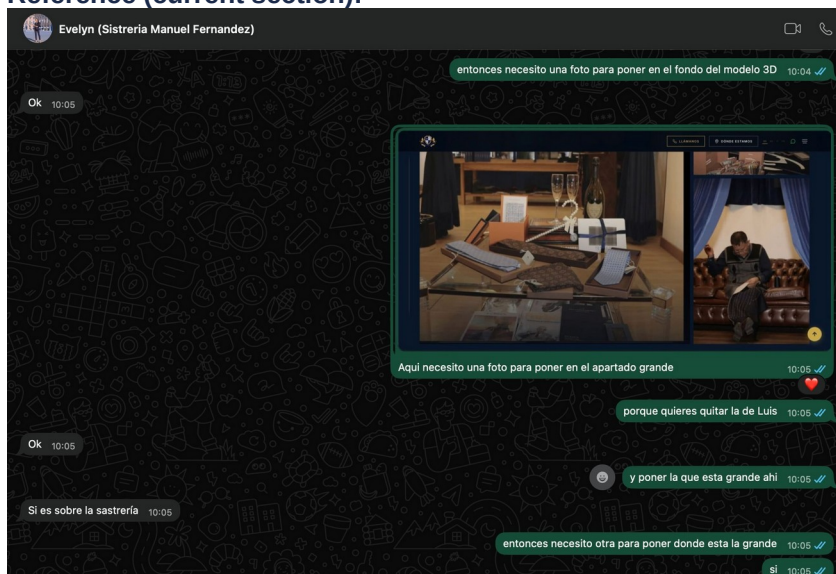

New background photo:

3. Sastrería section — remove Luis's photo, move accessories photo

In the sastrería section there are two photos: a large one on the left (accessories / ties on the glass table) and a smaller one on the right (Luis, the man sitting on the sofa). Remove Luis's photo and move the accessories photo into the right-hand (smaller) slot. The layout stays the same — big left, small right — only the pictures change. (See change 4 for what fills the large left slot.)

Reference (current section):

4. Sastrería section — new photo in the large left slot

Put the new photo below into the large left-hand slot, where the accessories photo used to be (shop interior — blue curtains, gold chandelier, Chesterfield sofa, Manuel Fernández banner).

New photo:

5. Courses — set the cover photo for each course

Each of the five courses gets a dedicated cover photo. The mapping is below (matched by content):

Construcción de solapas:

Course cover photo →

Ojales a mano:

Course cover photo →

Introducción a la sastrería artesanal:

Course cover photo →

Acabado profesionales:

Course cover photo →

Entretelado a mano:

Course cover photo →

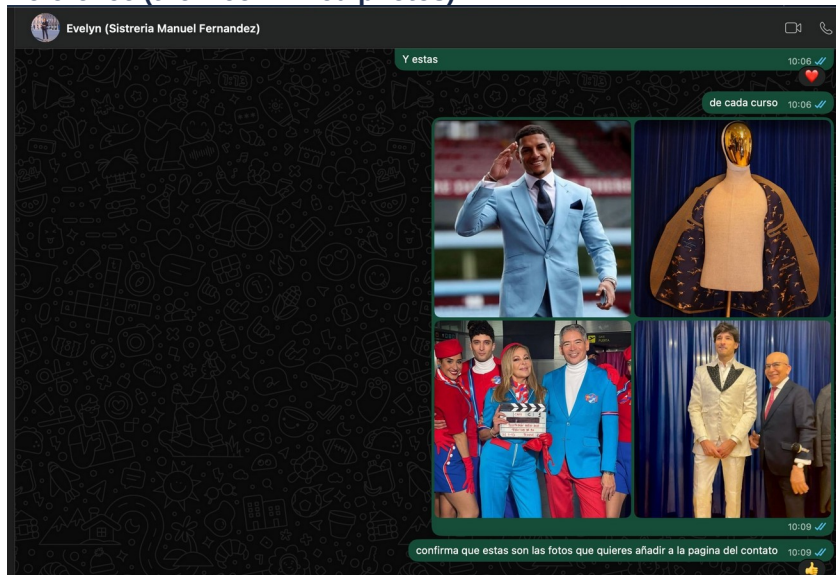

6. Contact page carousel — replace the 4 photos

On the contact page's rotating display (carousel), delete the 4 photos currently there and replace them with the 4 new photos confirmed with the client (shown in the reference below — the team already has the files).

Also: the caption in each photo's bottom-left corner (describing what the image is / who is in it) needs to be adapted to match its new image.

Reference (the 4 confirmed photos):

7. “Paso 03 — Resultado” section — change background

In the “Paso 03 — Resultado” slide (the stepped carousel slide reading “No verás un traje. Verás una versión mejorada de ti mismo...”), change the background image to the new photo below (five men in blue suits outdoors).

Current section:

New background photo:

8. “El Proceso — Tu traje empieza en ti” section — change photo

In the “El Proceso — Tu traje empieza en ti” section, replace the current left-hand photo (close-up of the grey checked three-piece suit with the red tie) with the new photo below (man in a light grey suit with a blue tie, buttoning his jacket outside the wrought-iron storefront).

Current section:

New photo:
