VERSION 1.0 — POST-CLIENT-REVIEW

All copy edits, visual tweaks, structural reordering, bug fixes, and navigation updates. Everything in this group is expected to be completed within **48 hours**. Grouped by area of the site for efficient implementation.

GLOBAL · SITE-WIDE

1.01 **GLOBAL** Remove **"1978"** from every instance across the site.

1.02 **GLOBAL** Remove **all em/en dashes** (— , –) used between inline text fragments throughout the site.

1.03 **GLOBAL** The title **"El Corte como Lenguaje"** currently appears too many times. Audit every instance, keep it in one canonical location only, and remove or rename the rest.

Flag for dev: please send back a list of every page where this title currently appears so we can confirm which instance to keep.

1.04 **NAVBAR** Add a small **WhatsApp button** to the top navigation bar.

1.05 **NAVBAR** Make the **"Reservar Cita"** button visually prominent everywhere it appears — should clearly stand out as the primary call-to-action on every page.

1.06 **NAVBAR** Replace the current hamburger icon with the word **"menu"**.

CURRENT ICON — TO BE REPLACED WITH TEXT LABEL "MENU"

1.07 **LANGUAGES** Add **Italian** and **French** to the language switcher.

1.08 **LOADING** Replace the current initial loading page placeholder with the **actual SMF logo**.

LANDING PAGE · HOME

1.09 **HERO** Change the **hero title**:

Current title → **"Sastrería de hoy, pensada para el mañana."**

1.10 **HERO** Change the **hero subtitle** (yellow text):

Current subtitle → **"Arquitectura en tela, hecha a la medida de tu esencia."**

1.11 **LANDING** Make the concept that **a suit can be re-adjusted over time** highly visible and prominent on the landing page. This is a key differentiator that must not be buried.

1.12 **LANDING** Remove the line **"Cada prenda construida desde cero, sin pruebas previas."**

1.13 **LANDING** Rename services section title:

~~"Todo lo que ofrecemos"~~ → **"Experiencia Sartorial"**

Ensure **all 9 services** are displayed in this section.

1.14 **LANDING** Remove the section directly underneath **"El Arte del Sastre"**.

1.15 **LANDING** Remove the **"La disciplina del detalle"** section. The section below it with the on-scroll animation is the one that stays.

"DESDE LA PRIMERA CITA" SECTION · REORDERING

1.16 **DESDE LA PRIMERA CITA** The steps in this section must follow the **same order** as the numbered services list (see items 1.28 and 1.29 below).

1.17 **DESDE LA PRIMERA CITA** Rename step:

~~"El Corte"~~ → **"El Diseño"**

1.18 **DESDE LA PRIMERA CITA** Remove **"El Forro"**.

1.19 **DESDE LA PRIMERA CITA** Final order of steps should be:

El Tejido · El Diseño · El Corte · El Proceso Artesanal

Flag for dev: note that step 2 renames from "El Corte" to "El Diseño" (item 1.17), and a *new* step called "El Corte" now sits at position 3. Please verify icons/imagery still map correctly after reordering.

PRIORITY 1

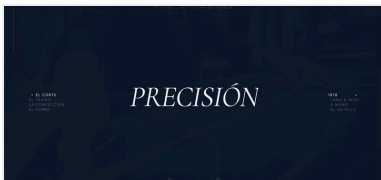

"Sastrería Artesanal" Page · Section Reordering

DEADLINE · 1-2 DAYS

The **Sastrería Artesanal** page needs its sections re-sequenced as shown below. Two existing sections are to be removed, and a **new section for Evelyn** must be added directly after the Manuel Fernández biography. Each card below is a screenshot of the current on-site section, with its new position and action.

01 Hero · "El Arte de Vestir Bien"**KEEP****Action:** Keep as the first section of the page.Remember to apply item **1.01** (remove "EST. 1978" eyebrow text that currently sits above the title).**02 La Filosofía · "No medimos el cuerpo. Medimos la persona."****KEEP****Action:** Move to second position on the page.

No copy changes needed in this section.

03 El Oficio · "Precisión" (scroll-animation section)**KEEP****Action:** Move to third position.This is the scroll-animation section that stays (referenced in item **1.15**). Apply steps reorder from items **1.17–1.19** here if it shares the same step labels: El Tejido · El Diseño · El Corte · El Proceso Artesanal.**04 La Historia · "Una Vocación de por Vida" (Manuel Fernández)****KEEP****Action:** Move to fourth position.Remember to apply item **1.01** (remove the large "1978" watermark behind the title).**05 NEW SECTION · Evelyn****ADD (NEW)****Action:** Create a **new section dedicated to Evelyn**, positioned directly after the Manuel Fernández biography (section 04).**Visual reference:** the lady in the photo on the left is Evelyn. The new section should mirror the structural pattern used for Manuel's section (section 04) — portrait photograph on one side, eyebrow label, headline, and body copy on the other.**⚠ Pending from client: Evelyn's bio copy, headline, and final portrait photograph. Placeholder structure can be built in the meantime.**

— "El Corte como Lenguaje" · image fan / scroll reveal

REMOVE

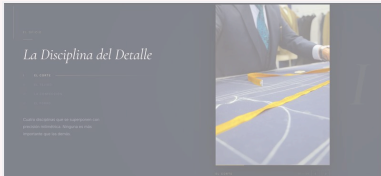

Action: Remove this section entirely from the Sastrería Artesanal page.

This relates to item **1.03** (auditing where "El Corte como Lenguaje" appears). On this page specifically, it should be deleted.

— "La Disciplina del Detalle" · El Oficio · static

REMOVE

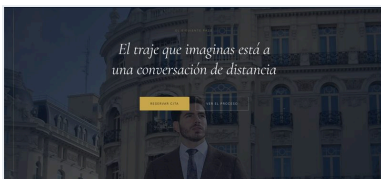

Action: Remove this section entirely.

This is the static version of La Disciplina del Detalle. The scroll-animated version (section 03 above, "Precisión") is the one that stays. Same principle as item **1.15**.

06 Final CTA · "El traje que imaginas está a una conversación de distancia"

KEEP

Action: Keep as the final section of the page (position 06 after the two removals).

Apply item **1.05** here — make the "Reservar Cita" button visually prominent.

Summary: final section sequence on the Sastrería Artesanal page is **01 Hero** → **02 La Filosofía** → **03 El Oficio (Precisión)** → **04 La Historia (Manuel)** → **05 Evelyn (NEW)** → **06 Final CTA**. The "El Corte como Lenguaje" and static "La Disciplina del Detalle" sections are removed from this page.

Reported bugs and a mandatory QA pass before sign-off. Both items fall within the 1–2 day window alongside the quick fixes above.

B.01 **MENU / NAVIGATION** **Page load error on first navigation.** When entering the site and selecting a menu item, an error appears. Only after a manual page reload does the target page render correctly. This happens on **all pages**.

B.02 **GLOBAL** General "error load" reported on all pages — investigate whether this is the same root cause as B.01 or a separate issue.

★ MANDATORY QA PASS — BEFORE SIGN-OFF

It is **critical** that the team tests **every single interaction and every small detail** of the website before delivery. Click every button, hover every state, trigger every transition, test every form field, switch between all four languages, resize across breakpoints, and reload from cold on every route.

The site must feel **super smooth and perfectly functional**. No rough edges. Please do not consider the quick-fix batch closed until this full QA pass is documented.

Larger-scope work: the 3D configurator, Loro Piana integration, the new Tienda (e-commerce) section, and shipping logistics. These require their own planning and deadline commitments from the development team.

3D MODEL & CONFIGURATOR

2.01 **3D MODEL** Update the **Modelo 3D** title:

Current title → **"Crea tu traje aquí"**

2.02 **CONFIGURADOR** Integrate **Loro Piana's "eFabrics" app** into the *Configurador de Prendas* page, so users can browse and select Loro Piana fabrics directly from within the configurator experience.

2.03 **CONFIGURADOR** Developers to perform a **full audit of the eFabrics app's capabilities** and report back on everything that can technically be implemented within our configurator. We need a feasibility overview before finalising scope.

NEW SECTION · TIENDA (E-COMMERCE)

2.04 **NAVIGATION** Add a new page called **"Tienda"**, positioned directly below **"Servicios"** in the navigation.

2.05 **TIENDA** The Tienda will sell the following categories of accessories and ready-made pieces:

- Camisas
- Pantalones
- Trajes completos
- Chalecos
- Corbatas
- Gemelos
- Pañuelos
- Fajín
- Pajaritas
- Abrigos
- Blazer

2.06 **SHIPPING** Research and present **shipping options**, and propose how to integrate a shipping solution with the website (carrier, zones, rates, checkout flow, integration method). Deliver a short options document before build.

► PROJECT-WIDE DEADLINE REQUEST

Programmers: please provide a realistic deadline for delivery of the **entire remaining project**, accounting for the quick-fix batch, the QA pass, and all Priority 2 work above (3D model, Loro Piana integration, Tienda + shipping). We need this committed date before the next client update.

ITEMS PENDING FROM CLIENT

One outstanding asset needed from Evelyn before the Sastrería Artesanal page can be fully completed:

- ⚠ **Section 05 (Evelyn)** on the Sastrería Artesanal page — bio copy, headline, and final portrait photograph. Placeholder structure to be built in the meantime.
